I Made It

Afroman

(I made it) even though I dropped outta high school
Because I got high, I'm cool
(I made it) never slowed down by the malt liquor
I still made the dollar bills come quicker
(I made it) I'm a rapper but I used to be homeless
But you never found me microphone-less
(I made it) I used to sleep in my car
Now I'm a worldwide superstar
(I made it) I used to be locked up in jail
Now I'm free worldwide, getting my mail
(I made it) I had no women
Now I got so many, my head be swimming
(I made it) I used to be piss pour
Now I got major dough
(I made it) I used to be skinny
Now I eat plenty

(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive
(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive

(I made it) people can't stand me
The music industry tried to ban me
(I made it) hypocrites tried to cancel my shows
But the rap fans love my flows
(I made it) haters try to troll me
But late at night, their girlfriends hold me
(I made it) they tried to blackball me
But I already got black balls, G
(I made it) I hit the blunt and wonder
Am I really just a one-hit wonder?
(I made it) how many hits do you need?
Only one, unless it's weed
(I made it) Adams County sheriff threw a raid
They didn't find nothing, I'm about to get paid
(I made it) born in '74, a ghetto resident
2024, now I'm running for president

(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive
(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive

(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive
(I made it) through the traps of life

Through the stress and strife
(I made it) past twenty-five
I'm still alive
(I made it) through the traps of life
Through the stress and strife
(I made it) past twenty-five
I'm still alive
(I made it) through the traps of life
Through the stress and strife
...
