

# Flowers

Afromental

Hey there girl  
Shining smile  
Don't get me wrong  
We know each other quite for a while  
But I thought  
I'd be cool  
If I'd get you some beautiful flowers  
You and I baby ain't nothing but friends  
And I know we gotta stay that way  
I'm just relaxing tonight girl  
But I can see this weird look in your eyes

Flowers  
Wanna give you some flowers  
I hope you don't mind flowers  
If you'd like sometimes  
You and me we can be one night lovers  
Flowers  
I can show you my tower  
You can play with it hours  
You and me we can switch  
And I can play with your flower

Don't be so shy girl  
Walk with me I'll treat you right  
Give me your hand keep that smile on your face for all night  
Cause it lightens your eyes  
And when you look at me I already know that you know it to  
That we should go outside  
And walk for a while because  
I wanna get to know ya  
But maybe sometimes  
We spend all night shining together as one

Flowers  
Wanna give you some flowers  
I hope you don't mind flowers  
If you'd like sometimes  
You and me we can be one night lovers  
Flowers  
I can show you my tower  
You can play with it hours  
You and me we can switch  
And I can play with your flower
