

Fuck the World

Afromental

All these years (I) had a feeling of missing some
Plans and dreams I've been keeping - teared apart
Every step I took I wanted more
People pulled me down so I've hit the wall

Fuck the world, let's enjoy the ride
Just wave homie side to side
Everybody say Head up Head up
show the world what you're all about

Fuck them all, let's enjoy the ride
Just wave homie side to side
Everybody say Head up Head up
And show them all what you've got

It so easy for them to play a judge
They do hate on one's whose out of line
Your words cut like blades I say no more
Time for me to face my fate and go

Fuck the world, let's enjoy the ride
Just wave homie side to side
Everybody say Head up Head up
show the world what you're all about

Fuck them all, let's enjoy the ride
Just wave homie side to side
Everybody say Head up Head up
And show them all what you've got
