

Love Song, Not

Afromental

I wanna spend whole night with you baby
Want you beside me when the sun comes up
We have a lot of time to go crazy
So relax, let's do it right
I love the way you look at me babe
And I can tell there's somethin' between us
Not soon enough to call you my lady
But maybe it'll happen some time

I love your flavour babe, this night belongs to us
I wanna feel you, wanna touch your body all the time
So sensitize your senses as I go deep inside
I wanna make you come...

It's not another love song
It's just about makin' love
Just listen to these love notes

I wanna spend whole night with you baby
I wanna feel your body so close to mine
The softness of your skin is priceless
It's like a lighter for the fire inside
Give me your hands and cover my eyes
So we can play the game called "seek and hide"
Let's find together your perfect spot
You'll be my cookie I wanna bite ooh

Hey babe it's so cold outside
So come to me I'll warm you up
Don't be afraid it's not a lie
I really want to make you come...

It's not another love song
It's just about makin' love
Just listen to these love notes
