

# Made A Man Of Me

After 7

I'm sorry I hurt you  
The many times you called on me, I was not around  
I know I just can't live it down  
Please forgive me  
Say the words, just tell me what to do  
I'll spend my life eternally serving you, yeah  
Because of you, I've learned true love forever and ever  
Oh, girl

Girl, your love has made a man of me  
I can truly say for sure that  
I can give you what you need  
I'm asking, will you please take my heart?  
It's so clear to me that you are my queen  
And I will never leave  
So, I wanna thank you, baby  
'Cause your love, it saved my soul

Ooh, it's so amazing  
You saw in me someone special, I never knew  
Out of the darkness, you led me to the light  
Now I know it's right, yeah  
There's no me without you  
Each night, I'm on my knees  
Thanking God for you  
'Cause, baby, you know you're the truth  
And I want you to know

Girl, your love has made a man of me (yeah)  
I can truly say for sure that  
I can give you what you need  
I'm asking, will you please take my heart?  
It's so clear to me that you are my queen  
And I will never leave  
So, I wanna thank you, baby  
'Cause your love, it saved my soul

I came too close to finding out what it's like  
To live my life alone  
Girl, no one can take your place, I know there's  
There can be no other way  
If I had to choose between (if I had to choose between)  
I'd choose you before air that I breathe  
'Cause you mean so much more to me  
And I want you to know (want you), I need you to know

Your love, ooh, babe (girl, your love has made a man of me)  
I can truly say for sure that  
Girl, I can give you what you need  
I'm asking, will you please take my heart? (I'm asking, won't you please take my heart?)  
It's so clear to me that you are my queen (you're my queen, baby)  
And I will never leave  
So, I wanna thank you, baby (so, baby)  
'Cause your love, it saved my soul (oh, baby, my soul)

Girl, your love has made a man of me

I can truly say for sure that (ooh, baby)  
I can give you what you need  
I'm asking, will you please take my heart?
