

Nights Like This

After 7

I could feel that it was over
Your love for me
Why couldn't you tell me you had
Another on your mind?
Its no way to treat me when you know
How I feel inside

I could not hide the way I felt last night.
Tears I cried
My love for you I can't deny no no no no

Nights like this I wish
Rain drops would fall(yes I do hey baby oh)
Nights like this I wish that
Rain drops would fall

Girl now I know what been going on
You got another lover and you got it going strong
Been walking round town with a smile on my face
Trying to fight the hurt trying to hide the shame baby

I can not cry no more,
Now I realize
I was too blind baby
Being a fool in love you
Know it ain't right girl
If you really wanna be
In happy baby

Nights like this I wish
Rain drops would fall(yes I do hey baby oh)
Nights like this I wish that
Rain drops would fall

Yeah yeah oh how I wish rain drops would fall on my face babe)
Hey oh, oh
Rain rain baby rain drops on my face baby

Oh, oh day I cried

I could feel when every thing was not to real
Inside I cried to win your love you know I tried

Come one go on keep rain drops falling on my face baby
Eh come on come on yeah
Hey let them fall baby
