

# Compromise Is Going To Kill My Baby

Afterhours

Everyone is nothing but a sail  
everyone is nothing but a try  
ought to find a way  
ought to find a way  
out i got a way that's gonna dry my brain  
compromise's going to kill my babe  
compromise's going to kill my babe  
i cannot talk without being a liar  
i cannot feel 'cause it just made me tired  
something that you say  
something that you say  
i'd feel the urge but i can't feel the claim  
compromise's going to kill my babe  
everyone is nothing but a sail  
everyone is nothing but a try  
something that you say  
something that you say  
i got a way that's gonna dry my brain  
compromise's going to kill my babe  
compromise's going to kill my babe
