

## Power To Kill

Afterworld

Government keeps telling us how to live our lives  
everything goes just fine if we don't resist  
You can do nothing on your own, you're just like doll  
You can do nothing on your own  
After all it's always money why they must do their tricks  
Without money without power that is what they believe  
We can't resist the rules they make, 'cos they have power to kill  
ll  
Our life is nothing more than a fake, they have power to kill  
We just have to try to go on, without power to kill  
We have the faith, so we don't need, the power to kill  
Perhaps tomorrow is brighter than we see  
What if there's no more fear and anger  
Perhaps tomorrow we can laugh 'cos we are free  
and they're lying deep in their graves
