

## Virtual Angel

Afterworld

Darling, tonight all your sins will be forgiven, Tonight your dreams will come true...

My life`s like empty black room, Without future, without love  
My world`s like empty black hole, All the hope has gone forever  
Would you give me something surprising, Tell me some reason to live

Would you show me something worth trying, Tell me one reason to live

This cold world is a lonely place, No caring, no real love  
Everyone`s building their dreams, My hope has gone forever  
Every night I can see the light, My angel`s shining on my screen

My time has stopped, I wanna do it again  
I see you in virtual reality, no blood no pain  
I`m loving in virtual reality  
I see you in virtual reality, no blood no pain  
I`m living in virtual angel  
My virtual angel  
Darling, your game is over...
