

Dragonlie

Agar Agar

Oh, dragon fly by me
Stare at the lies who keep
Oh, fly by my side, please
Make me a better deal
Let me go deeper
Say it's forever
We'll be together again

He left me with all his lies
He thought that would better times
He ditched me with all his pride
Said, so long, choke and die

He left me with all his lies
He thought that would better times
He ditched me with all his pride
Said, so long, choke and die

Oh, dragon fly by me
Stare at the lies who keep
Oh, fly by my side, please
Make me a better deal
Let me go deeper
Say it's forever
We'll be together again

I beg you, partner, stay
Don't leave me here with silence
I crave for days alone
Though without you talking I'm torn

I beg you, partner, stay
Don't leave my here with silence
I crave for days alone
Though without you talking I'm torn

He left me with all his lies
And I got nowhere to lean down here
With all his pride
And I got no one to catch me
If I fall down
Begging him to stay
If I fall down

Oh, dragon fly by me
Stare at the lies who keep
Oh, fly by my side, please
Make me a better deal
Let me go deeper
Say it's forever
We'll be together again
