

# It's Over

Agar Agar

One, go hide under his neck  
And two, change him into a snail  
For once  
I know how soft a scream can be  
Until  
I found out where they want to weep  
I don't know why they wanna play hide and seek  
I don't know how we always wait for a treats

We keep on waiting  
On venom overflows and  
We keep on crawling  
I don't know what it means but

It's over  
It's over  
It's over  
It's over

Tell me who knows  
They played fair and they cheated with a smile  
Tell me what's real  
Did they get into my head that one time  
Tell me what's now  
Did you smile inside my head another time  
Tell me what remains  
Did they get into my head another time

We keep on waiting  
All this time overflows and  
We keep on moving  
I don't know what it means but

It's over  
I know it's over  
It's over  
I know it's over

Tell me what's real  
What they changed me into, am I alright  
Tell me what's real  
Yeah they got into my head another time  
Tell me what's now  
Did they smile into my head another time  
Tell me what's fake  
Yeah, they got into my head another time  
Another time

It's over  
They got into my head another time  
It's over  
They stuck into my head another time  
It's over  
They got into my head another time  
It's over  
They stuck into my head another time  
It's over

They got into my head another time  
It's over  
They stuck into my head another time  
It's over  
They got into my head another time  
It's over  
They stuck into my head another time  
It's over  
They got into my head another time  
It's over  
They stuck into my head another time  
Another time
