I'm surrounded by [?]  
It's magnificent  
See those movements in the blue nothing?  
See them coming?

Humming bird, hello  
Goose bird, hi  
Nothura, damn, you look good  
White ground dove  
Oh oh oh, oh oh oh

Sweet pals lay, ah ah ah  
Never stay, ah ah ah

Look at them up would you  
Look at the blue would you  
Look at them up would you  
Look at the blue now  
Look at them up would you  
Look at the blue would you  
Look at them up would you  
Look at the blue now

To those landscapes whom look like faces when discovered  
To the ones that will lay till the moon makes them discolored  
To those landscapes whom look like faces when discovered  
To the ones that will lay till the moon makes them discolored

Up and above

Feathered creatures flying over  
Feathered creatures can't be bothered  
Feathered creatures flying over

Look at them up would you  
Look at the blue would you  
Sit on my back now  
Its just so calm out here  
It's so bright you know  
It's just so calm out here  
Look at them up would you  
Look at the blue would you  
Sit on my back now  
Its just so calm out here  
It's so bright you know  
It's just so calm out here  
It's just so calm out here  
It's just so calm out here

To those landscapes whom look like faces when discovered  
To the ones that will lay till the moon makes them discolored
