

You're High

Agar Agar

You, you are high
Tell me that you
You are high
And I'm high too

You, you are high
Tell me that you
You are high
And I'm high too

And I'm high too
You stole my
I didn't like you
And you stole my

You are high
You are high

I was scared of love, your highness
Tell me, love, you're high
Fill me, love, you're high

I was scared of love, your highness
Tell me, love, you're high
Fill me, love, you're high

Love, love, love, love me like I'm so high
Why don't you love, love, love, love me like I'm so high?

And I'm high too
You stole my
I didn't like you
And you stole my
