

## All Gone

Agathocles

The clock keep on ticking  
And it's hanging on death's wall  
The clock keeps on ticking  
For our earth to fall

Over exploitation  
Of the sources of our earth  
Mindless consumption  
Which has started at our birth

Woods all gone  
In a time to come  
Needs to come  
Stop them now

Spilling of water  
Needless and real sad  
Do you wanna have your beer  
Brewed in an acid-bath?

Creeks all gone  
In a time to come  
Needs to come  
Stop them now

Still the spilling goes on  
Reason why it's going wrong?  
Credulous sick mankind  
The only animal which is blind

Just think of what you buy  
And the garbage you throw away  
'coz our species is to die  
if we keep heading for this way

Clouds are gone  
Now poison  
Needs for none  
Stop them now
