

# Humarrogance

Agathocles

Yet another song  
about our human race  
creating a planet of sadness  
the products, these are we

Yet another warning  
for the human family  
Hummarogance is taking over  
stabbing Earth to bleed

Exploit and pollute,  
destruction, rape of woods  
these are just a few actions  
of intelligent humanhood,

Just think, yes do think  
of what we are heading to  
and act, yes react  
for the sake of mother Earth
