

The Devil's Greatest Trick

Agent Steel

Far outside the circles of time
She chose this planet to take you on a ride
To somewhere, nowhere, to meet that someone
The one who'd show you to the pits of hell

Now you're trapped inside her spell
No escape the maze
A war to chivalry
The world on fire
They scorch your dignity
And now you're free
To find the gate to flee

She's got you wanting to go back inside
The pit from whence you came into this life
Society's got you believing a lie
That everyone's in love on a magic carpet ride

Their system that traps you into mediocrity
Their superficial promise of the goddess they lust
The system you serve got you blind fold diving
Soon you'll see the tables turning to their side

Trick, or treat, she's got
Her something good to eat
Your soul inside
She'll take you for a ride
Submit or die
The rest is history

She's got you believing she doesn't exist
And when you wake you'll know it was her trick
When you ask her where she came from
She'll say she was part of the curse

Trick, or treat, you're done
I've got you believing in me
Your soul is mine
The rest is history
Trick, or treat, you're done
I've got you believing in me
Your soul is mine
I'll win and you'll lose
Trick, or treat, she's got
Her something good to eat
Your soul inside
She'll take you for a ride
Trick, or treat, she's got
Her something good to eat
Your soul inside
She'll take you for a ride
Trick, or treat, she's got
Her something good to eat
Your soul inside
She'll take you for a ride
