

Do You Believe

Aggro Santos

Babe, there's just one thing I wanna know
Do you believe in love? Tell me, ah, tell me, yeah. Vamos!

It's a feeling I've kept inside
I been feeling this all of my life
I know I don't want to push this to the side but it's come to the point where I need to decide
I've taken chances, avoided answers
I've been through all of the circumstances
I'm come here on my own two feet and I've got two claws too suffer defeat

You have made me lose control, made my hearts on overload
And now the question is, question is: "Let, let, let me know."

Do you believe, do you believe in love?
(Girl, I don't know if I do but I could change it for you.)
Do you believe, do you believe in love?
(How will I ever know if I choose to let go.)
After all the hurt I know you're scared to get burned
La la, la la la la la
Do you believe, do you believe in love?
(Believe in love, believe in love)

If I could be honest I'm feeling your style and I can't see I've felt like this for a while
So when I said let's take it further well you replied with a smile
I don't wanna share you with nobody else
Nah I want you all to myself
And as selfish as it may seem girl, you're my dream girl

You have made me lose control, made my hearts on overload
And now the question is, question is: "Let, let, let me know."

Do you believe, do you believe in love?
(Girl, I don't know if I do but I could change it for you.)
Do you believe, do you believe in love?
(How will I ever know if I choose to let go.)
After all the hurt I know you're scared to get burned
La la, la la la la la
Do you believe, do you believe in love?
(Believe in love, believe in love)

I won't ever leave her, now now I'm a believer
I won't ever leave her, now now I'm a believer
She took away my pain now I can never feel the same
She took away my pain now I can never feel the same

Do you believe, do you believe in love?
(Girl, I don't know if I do but I could change it for you.)
Do you believe, do you believe in love?
(How will I ever know if I choose to let go.)
After all the hurt I know you're scared to get burned
La la, la la la la la
Do you believe, do you believe in love?
(Believe in love, believe in love)

I won't ever leave her, now now I'm a believer

I won't ever leave her, now now I'm a believer
I won't ever leave her, now now I'm a believer
I won't ever leave her, now now I'm a believer
