

# Don't

Agnez Mo

You came into my life offered me a lot of things to share  
Took me to the greatest place that I've never been there  
You've touched a lot of space  
Every single words from you seemed nice  
But I've never knew that you're just like another guy  
Sometimes I wondered why  
Why you could be so unkind  
But then I realized the funniest thing was  
Me who believed everything that you said

Don't look at me like you really love me  
Don't say you love me if you don't want me  
Don't say you're sorry cause it's not gonna change everything  
That you've done and you think it was fun  
Don't come to me if you plan to leave me  
Don't hold me tight if you try to harm me  
Don't think it's easy to be the one  
That you love and forget  
And the things are not quite interesting
