```
Over the hill
I will be waiting on for you
I won't pretend
That you don't mean nothing to me
Come now, come now,
Come back now, come back now
```

The doubt will creep
And crawl in on you
The dark can leap
And fall upon you
Come back now, come back now

```
Let it be, let it go,
Let it fall, let it blow
Let it come, let it go,
Let it fall, we will know.
```
