

# Love Me Senseless

Agnes

I'm floating higher bring the atmosphere, oohh  
You're everything but us just disappears, yeah  
Never plain like coming down from here  
I wanna melt into your arms into the stars  
Into the night and fly away

Beyond any world I've ever seen  
Your eyes take me  
Beyond any dream I'll ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss, oh  
Love me senseless  
Love me senseless

Don't know how I live without your love  
I only know I never lived enough I know  
Now I think I almost feel too much  
I just wanna let it flow let it go  
Into the blue and fly with you

Beyond any world I've ever seen  
Your eyes take me  
Beyond any dream I'll ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss, oh  
Love me senseless  
Love me senseless

Feel my song without a sound  
Till I know it to be found

Beyond any world I've ever seen  
Your eyes take me  
Beyond any dream I'll ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss, oh  
Love me senseless  
Love me senseless
