

Magic Still Exists

Agnes

Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body

For all the moments that you wish would last for days
For the people who forgive all of your mistakes
For all the times you thought you couldn't see the truth
Even though it was right there in front of you
For all the nights you were the last one to go home
Not cause you're lonely, you're just holding onto hope
For all the nights we shattered, love is all you need
For the freedom to be who you wanna be

Keep believing that we'll stay forever young
Keep believing that we've only just begun
No, we don't have to close our eyes and make a wish
With you, I know that magic still exists
Oh-oh, oh-oh, oh-oh, magic still exists
Oh-oh, oh-oh, oh-oh, magic still exists

Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body
Free your mind and free your body

For all the reasons you keep falling back in love
And all the times that you got close, but not close enough
For all the nights you fought a wall inside yourself
Wanted to be a little more like someone else

This wild world, it doesn't owe us anything
So raise your glass and let us all together sing
Right here, right now, I got nothing more to wish
With you, I know that magic still exists
Oh-oh, oh-oh, oh-oh, magic still exists
Oh-oh, oh-oh, oh-oh, magic still exists

When they're turning all the lights out
And the matter of the heart is what remains
Now keep it coming till the time's up
Whether we are saints or sinners
Up we go, and then down we fall

You win sometimes, and then you lose it all
Life can fool ya, if you want it to
But all I know, it leads me back to you

Oh-oh, oh-oh, oh-oh, magic still exists
Oh-oh, oh-oh, oh-oh, magic still exists
