Hello precious  
Show off your colours  
Ex-express yourself  
(Free your mind and free your body)  
My bothers and my sisters  
Praise your existence  
Ex-express yourself  
(Free your mind and free your body)

Time to speak the truth  
No more time to lose  
Finally I see it's up to me to choose  
I was trying to be, be somebody else  
Deep down I knew I wasn't true to myself

I've been waiting for my whole life for this day  
Yeah, I've been crying on my own, yeah, but it's okay  
Now that we are finally here, babe  
I got you, I got you, I got you all the way

There is no need in trying to fit in  
People gonna say what they say anyway  
Don't you hide yourself, go and love yourself  
Yeah, we got this far just being who we are

I've been waiting for my whole life for this day  
Yeah, I've been crying on my own, yeah, but it's okay
