

# I Was A Flower

Agnetha Fältskog

Careless hands, reckless heart  
Tore me from the ground  
I followed you  
Like a river follows the sea

Hollow dreams, precious pride  
A blossom by your side  
I followed you  
You were everything to me

But now you walk right through me  
Like I'm an empty ghost  
Now, when I need you the most

I was a flower  
Now look at what you've done  
You've made my colours fade  
Too close to the sun  
Once I was innocent  
Beautiful, life had just begun  
I was a flower  
Now look what you have done

Crazy nights, wicked ways  
I wither in the haze  
Followed you, till I followed you too far  
I needed you, your face was kind  
I trusted you, my faith was blind  
Now I don't know who you are

I was a flower  
Now look at what you have done  
You've made my colours fade  
Too close to the sun  
Once I was innocent  
Beautiful, life had just begun  
I was a flower  
Now look what you have done

But now you walk right through me  
Like I'm an empty ghost  
Now, when I need you the most

I was a flower  
Now look at what you have done  
You made my colours fade  
Too close to the sun  
Once I was innocent  
Beautiful, life had just begun  
I was a flower  
Now look what you have done  
(Now look what you have done)  
Now look what you have done  
(Now look what you have done)

Careless hands, reckless heart  
My life had just begun

Now look what you have done
