

## Stay

Agnetha Fältskog

I know you've been around, I don't mind,  
You know I've been down, for such a long time,  
We both wanna care  
Lonely hearts searching for someone there  
We could have, should have  
All the love we've waited to share.

Stay, I want you to stay,  
Isn't it time we stopped running away?  
Oh stay, I want you to stay,  
Isn't it time we stopped running away?

You know I need you  
And I know that you need me too,  
Come close and look in my eyes  
There's a light shining for you.

Stay, I want you to stay,  
Isn't it time we stopped running away?  
Oh stay, I want you to stay,  
Isn't it time we stopped running away?

Make up your mind, decide,  
If we are making love tonight  
Tell me yes tonight I might  
Open the door it's gonna be alright.  
Make up your mind, decide,  
Open the door it's gonna be alright now.

Stay, I want you to stay,  
Isn't it time we stopped running away?  
Oh stay, I want you to stay, I want you to stay,  
Isn't it time we stopped running away?  
Oh stay, please stay, I want you to stay  
I need you, isn't it time we stopped running away....
