

Anti-Social

Agnostic Front

I don't wanna hear about
What's coming out your fucking mouth
I just wanna be alone

It's not that I don't really care
As you're talking in my ear
I don't have the time to spare

Now I gotta walk away
I got nothing left to say
Maybe on another day

Anti social!
Just leave me alone
Anti social!
Just leave me alone

Why can't you just let me be?
Stay away, let me breathe
Leave me the fuck alone

Stop breathing down my fucking neck
I could care less about your thoughts
Your stories are a fucking bore

Now it's gonna escalate
I'm pissed you didn't walk away
This is your final threat
Stay the fuck away

Anti social!
Just leave me alone
Anti social!
Just leave me alone
