## **Agnostic Front**

Attack! - You played the fool Attack! - No respect for you We don't like your kind No honor, no pride

Attack! - Nothing you can do Attack! - You broke the golden rule

[Chorus]

You're losing face, you got no backbone No love for you, you proved you're fake Put yourself in this position Never give, only take

We will attack (3x) Attack! (2x) We will attack
