Proud
To strand together with
Those
Who understand what I mean
Proud
To make this stand together
Now - you and me!

This ain't for the scene
It's for my friends and family
To get respect from me
Stand by my
Side stand up and fight
In my time of need
I know who is there for me
Their endless loyalty
Never goes unnoticed with me

I'll tell you what I mean There's those who live it Those who talk it Those who walk with me! They stand by my side Stand up and fight!

Everything that we've
All been through
Goes beyond a scene!
Everything that we've
All lived through
Goes beyond the streets!
I don't walk alone
I don't walk alone!

We walk side by side Until the day we die!

Never above you

Never below you

By my side - by my side

Never above you

Never below you

By my side - always by my side
