

Conquer and Divide

Agnostic Front

They set you up, you follow like the other sheep
It's all a big disguise
Politicians and all their empty promises
It's all a fucking lie
Lives are lost but they won't stop at any cost
This is happening right before our eyes

It's all a waste of time
Conquer and divide

Power of expression, power of the mind
Freedom of speech
Live free or die!
Stand up and resist, you gotta fight to exist
Break down the walls that divide
You want to pit the poor, on the poor
Out of order
Out of control!
While the rich get rich, the country's run on greed
Sooner or later it's all gonna fall

It's all a waste of time
It's all a bunch of lies
It's us! Against us!
Conquer and divide

Live free or die
Fight to exist
Break down the walls
That they divide

Out of order, out of control
Don't let them steal your soul
Set us up so we can hate
Fuck your system, we can't relate

Politicians and all their empty promises
It's all a fucking lie
They set you up, you follow like the other sheep
It's all a big disguise

It's all a waste of time
It's all a bunch of lies
It's us! Against us!
Conquer and divide
