

Dead Silence

Agnostic Front

Cast no blame
No excuses, no complaints
No regrets?
Never too late to admit your mistakes
Let it go, let it be
Show some real honesty

Dead silence!
There's nothing left to say
Dead silence!
I said all there is to say

It's all far from the truth
The lies, the games you play
Take a look in the mirror
Admit to your ways
Seeing is believing—Ignorance is blind
Seek for the truth, own it and open your eyes

Dead silence!
There's nothing left to say
Dead silence!
I said all there is to say

Dead silence!
There's nothing left to say
Dead silence!
I said all there is to say

Let's be real!
Half measures avail us nothing
It's catching up to you
Your excuses are getting tired
You always sing the blues
Let's be real!

Let's be real!
