

Hell To Pay

Agnostic Front

I couldn't care for your opinion
I couldn't care for your existence
I've persevered without your clout
Fuck around, find out!

I'm not here for salvation
I'm here to conquer my expectations
The fire's in me, I just won't stop
Fuck around, find out!

No failure, no fear
Let me make my intentions clear
There's hell to pay if you dare to cross me!

Keep to myself, I know my path
Keep living hard, keep living fast
Heart and soul is all I got
Fuck around, find out!

Push my limits, I won't break or burn
Silence the haters at every turn
Think you can stop me? Go for it now!
Fuck around, find out!

No failure, no fear
Let me make my intentions clear
There's hell to pay if you dare to cross me!

No failure, no fear
Let me make my intentions clear
There's hell to pay if you dare to cross me!

Forged my own path
Forged my own path
Never run astray
Never run astray
If you try to stop me
There's hell to pay!

If you try to stop me
There's hell to pay!
