

# In My Blood

Agnostic Front

I don't believe in anything unless  
I see it with my own eyes  
In doubt of the absolute truth  
That's the way I'm gonna live my life  
We were just a bunch of angry outcasts  
Out of step with the rest of the world  
But together created a movement  
New York Hardcore!

It's in my blood!  
It keeps me alive  
With all my heart  
I sweat and bleed  
It's in my blood!

This was more than a style or music  
But for us it was a way of life  
We were the voice of the kids of the black hole  
We gave them hope to live by  
Out of step with society  
A cry for justice and unity  
Screaming for that change and never let them fall

It's in my blood!  
It keeps me alive  
With all my heart  
I sweat and bleed

It's in my blood!  
It keeps me alive  
With all my heart  
I sweat and bleed  
It's in my blood!

It's in my blood  
It keeps me alive  
With all my heart  
I sweat and bleed

It's in my blood!  
It keeps me alive  
With all my heart  
I sweat and bleed  
It's in my blood!

It's in my blood!

It's in my blood!
