Just Like Yesterday

Agnostic Front

Death before dishonor
Our path through history
And just like yesterday
Undying loyalty
(2x)

Against all odds we stood side by side
Make something outta nothing, we built this with pride
We fought our battles
Through all our travels

So many have died from dead end streets
Of New York City to the Berlin beat
Hardcore world wide
This is us, until we die

[Chorus]

Looking back on all our glory days
CBGB's sunday matinees
All the friends that we made
Some faded away

30 years later we're still going strong
We got the youth to keep it going on
The music, the message, we'll have our say
It'll never ever fade away

[Chorus]
