

# Obey

**Agnostic Front**

Turn out your lights, you have no rights  
We'll tell you where to go, what to say  
Don't question, obey!

Create the illusion  
Provoke mass confusion  
And you'll have no choice  
Obey! Obey! Obey!

Stay in your zones, worship your phones  
We'll tell you how to live, how to pray  
Don't question, obey!

Create the illusion  
Provoke mass confusion  
And you'll have no choice  
Obey! Obey! Obey!

We see through their facade  
With our souls, they won't play God  
Use our voice to weaponize  
Use our voice to weaponize!

We're not gonna live a lie  
Obey! Obey!  
We're not gonna fade and die  
Obey! Obey!
