Agnostic Front

You're the lowest form of life  
You don't deserve to take another breath in this world  
Your perverted mind will bring you down to this  
She's barely ten years old, you're fucking sick

Kill yourself suicide, it's about time you fuckin' die  
Kill yourself suicide, kill yourself suicide

You've got a sick mind with no problem  
Kidnap a little girl, tie her up and all that  
Built a secret room to hide her from the world  
Normal guy with a normal job and I'm the only one disturbed?

Never thought you you'd be caught  
Everything leads back to you  
Underneath the TV was a room they found it too  
Kill yourself, kill yourself, I got the feeling that it's time  
you die

Crucify yourself with a rusty nail  
Or get fucked up in a prison cell  
Raping children of their innocence  
Hope you get what you deserve fuckin' quick
