

# Revenge

Agnostic Front

When you see me coming  
It'll be too late  
You've done me wrong  
So now I must retaliate  
Yes it's about my honor  
I live what I speak  
I warned you once before  
Now you face defeat

My heart gets full of rage  
By your sight  
- Mercy!  
Is what you'll plead  
But it falls on deaf ears  
- No mercy!  
Disgrace is your name  
You're the only one I blame  
But anyone with you  
Will meet the same fate  
I've made it clear!

Revenge against my enemies  
- Your selfish acts have proved  
You have no loyalty!  
Revenge against all enemies  
- The time has come for you  
To face your destiny!

Revenge is never sweet  
It's more like a disease  
There's no satisfaction 'til  
I've cured myself  
Of the sickness in me  
Yes it's about my honor  
You disrespected the creed  
It goes deeper  
Than words can express  
I'll show you what I mean!

Revenge against my enemy!  
Revenge against all enemies!

The time is here now  
Fear is written  
All over your face  
You know you've done wrong  
You knew what was at stake  
Betrayed!  
By you my old friend  
Revenge!  
Will bring this to an end
