

Social Justice

Agnostic Front

How could you live and know what you've done to an innocent child?

Scum of the earth, you'll die for your crime, it's you I despise

Your actions are vile, you're sick in the mind : A creep in disguise

I'll never relate or forgive what you took - It's you who I hate

You got what you deserved

Justice has been served

Revenge is sweet, daggers in deep, from your head to your feet

Can't sympathise, what you did it disgusts : You destroyed others lives

Your time has come to face what you've done - Mercy has begun

[Chorus x2]

Social justice - Justice has been served

Social justice - You got what you deserved
