

## A Lie

Agonizer

A story has been told about the man  
Who made himself believe  
The cure has been found  
For the whole wide world disease

Honestly all you believe is a lie  
'Cause all the love in the world has died  
Let the beating begin

Story has been changed  
Over the centuries so many times  
The cure has not been found  
For the whole wide world believes

Honestly all you believe is a lie  
'Cause all the love in the world has died

Show me compassion  
Love will surely get you killed  
Show me compassion  
Love will surely get you killed  
Let the beating begin

Story's not been found  
About the man who didn't die in vain  
The cure has not been found  
For the whole wide world believes

World has become  
Crazy enough for the end  
Show your compassion for me  
Or the world and the man will die

Let the killing begin
