

## Pieces

## Agonizer

Pick up the pieces of your like  
( 'Cause it's the only one you got)  
And how you reap the ones you lied  
(Reap the ones you lied)  
Your greed will never let you out  
( 'Cause it's the cage that you make)  
While the world will pass you by  
World will pass you by...

World will pass you by?

Pieces slipping through your fingers  
All the while you're on your knees  
Try to be the one that everyone want you to be

Don't save me now  
Let me fail and fall before  
Don't save me now  
Let me make it my own

Lift me up when I can't fly  
(I have found my kryptonite)  
Still I have to take this fight  
(I'm the only one I've got)  
Foundation has to be on rock  
(Find the strength within yourself)  
Don't wait until you die  
Wait until you die

Wait until you die...

Pieces slipping through your fingers  
All the while you're on your knees  
Try to be the one that everyone want you to be

Don't save me now  
Let me fail and fall before  
Don't save me now  
Let me make it my own

Don't save me now  
Let me fail and fall before  
Don't save me now  
Let me make it my own

Don't save me now  
Let me fail and fall before  
Don't save me now  
Let me make it my own
