Wait for me on the other side
Wait for me on the other side.

What make you think your different?
If I shoot you, you bleed to death.
What makes you think your special?
If I break your bones it hurts like hell.

I'll break you
I'll break you
I'll break you
I'll break you

What makes you think your chosen?
If I smash you, you'll suffer till the end.
What make you think your something better?
You don't realize you're already dead.

Death makes no difference.
Time is passing by.
Death makes no difference.
Even the beauty must die.

Wait for me on the other side.
Wait for me on the other side.
Wait for me on the other side.
Wait for me on the other side.

What make you think your different?

What makes you think your special?
If I break your bones it hurts like hell.

I'll break you
I'll break you
I'll break you
I'll break you
