

In The Name Of God

Agonoize

The priest in your mind
Will blind out your eyes
The priest in your head
Take me as God instead

The priest in your mind
Will blind out your eyes
The priest in your head
Take me as God instead

Take me as God
Take me as God instead

Blind out your eyes
It is not what it seems
The only spirit, you won't find in your dreams
He teaches you to give your life
In the name of God, he prays you believe

He prays you believe

Now go ahead and look around
You should try to reach your own Point of view
To see what is real
Your own belief
To see yourself

In the name of God
To see what is real
