

Nekropolis

Agonoize

Fear control your mind

Keep them dumb, keep them blind
Fear is always controlled by a clever mind
Hide your thoughts, keep control
The easiest way to capture their souls
Your mind again is easy to swallow
You dictate what they just follow
You keep it quiet, while we all shout loud
We're all death meat in the slaughterhouse

Nekropolis
Down in the city of blood
Nekropolis
An empire built on blood

Treat them hard, treat them bad
Down in the story that hurts us, so sad
Nothing is good, nothing is safe
You stupid fool see the spit on the grave
Sit on your throne and control the world
Foolish dream and treat us like a nerd
You keep it quiet, while we all shout loud
We're all death's meat in the slaughterhouse
