```
When the three planets have an eclipse, a black hole like a doo
r is open.
Evil comes, spreading terror and chaos.
The ultimate evil.
Evil comes... evil comes.
Open the gate of hell
The ultimate evil
Open the gate of hell
Open the gate of hell
Open the gate of hell
Ultimate evil
The ultimate evil
Time goes by
Relationships, they die
No more contracts to force the world
In mind I keep human words of hope and loyality
My strenght to carry on will disappear
Open the gate of hell
Open the gate of hell
Open the gate of hell
The ultimate evil
The ultimate evil
Tonight I keep human words of hope and loyality
My strenght to carry on will disappear
Open the gate of hell
Open the gate of hell
Open the gate of hell
The ultimate evil
```
