Body Count

Agression

You who are fighting the endless war Told by generals to kill some more Wake up in the morning, march over the hill Whatever's in your way, you've got orders to kill

Got to get that body count Remember kids and chickens count Get that body count

The platoon got an order to attack a village After you're through, you can loot and pillage Rape all the women, murder the men Fuck all the sheep, butcher the hens

Napalmed a village, hiking into sea If anyone survived that clamity Mutilated bodies, blown in two Count both halves and be glad it's not you
