

Best In The World/Microwaves

Aha Gazelle

I got Greenbeans on my coffee table
I told y'all the truth didn't tell no fables
I always felt like I was unstable
Cause my brain see more than illegal cable
I put all my dreams on piece paper
As a 9th grader I knew I was greater
And a so called friend just laughed in my face but forget that hater
I don't need nobody ima make beats in my bedroom all summer
My imaginary friend says she loves me
Yea I made her a "she" to replace what I don't have so please don't judge me
Sometimes I feel like I sound redundant
And all the songs I make just sound too funny
And I should quit and get a real job selling woman's shoes like I'm Al Bundy
But lately I feel like I got a purpose
Lately I feel like it's all working
I don't know why but this past year I've been really cool with being Steve U
rkel
This is for people who enjoy the show and still like to laugh at all stupid
the commercials
This for the all the kids that stay in Walmart after midnight that's breakin
g curfew
Let's have toast one time for the people who said no
For the people who said I couldn't go
For the girls that said I'm too childish
For the ones who gave me a chance to grow
For everybody who wanna act like they still don't know
You gon learn today Aha's finally dope

I finally feel free
I'm okay with bein' me
I don't ever wanna leave
Oh no, it's the best thing in the world
She said wants a piece
But I'm not gon' let her see
Cause if I give it to her I may not get it back
It's the best thing in the world

Sometimes I forget I got a purpose
Can't name a time I'm not discouraged
Went to the altar this past Sunday and last Sunday during morning service
I been forming churches inside my mind, no denomination
All religions are in the same book just on a bunch of pages but on one occas
ion Can we come together
My God your God whatever
I'm just tryna find a common ground
Before the gates go tumbling down
Before they shoot another brother or choke em out
Pharaoh still plotting on us
The high priest still plotting on us
While all of Israel done got used to it they just sitting back like they got
the right to own us
But I know God is the rightful owner
Cold world I'm surprised I don't got pneumonia
I'll never let em see me sweat this is not a sauna
I'm a loner but I'm not alone bruh somebody did what I'm tryna do
I just wish I could be sinless no need for forgiveness forgive me for doubti
ng you

I'm bout to do the impossible God can you guide me through all these obstacles
I finally accept me for me plus you and I that's unstoppable
Saving souls might be my purpose bruh how could you not wanna rock with us
I finally accept me for me and that makes me free in God we trust

In God we trust yes, I finally feel free
I'm okay with bein me yea
Cause If I give it to her I might get it back
It's the best thing in the world
I finally feel free
I'm okay with being me
If I give it to her I may not get it back
It's the best thing in the world

Trappin in my bedroom ain't left the place in three days
I just hope when you hear this you feel it in your spirit and you'll be amazed
I put my blood sweat and tears in this so you're really listening to my DNA
I can feel I'm in a different place tell God I'm just a few feet away
My dad came in and said what you been doin all day
I can't even lie I did hesitate
I didn't even wanna look him in his face
Cause I didn't know what he was finna say
I was afraid that he didn't accept what I wanted to be
I like to rap and he likes to preach
This was the intro into his speech
He said, "Son, I'm really proud of you and I wanna let you know that I support your dreams
I'm always here if you need anything" then shook my hand and then he said, "Proceed"
When the door shut my eyes teared up I just sat still for bout 20 minutes
Cause even though it all made sense I really didn't get it
What makes a man who never knew his dad that never had a role model shake his hand
But in every way he still understands
I don't understand where'd he get the plan
It doesn't matter I'm just glad that he chose to stay in class
And for the record, he did pass
Yeah

[Aha:] See me and you we're really not that different. We both got one thing

[William:] Really?... well apparently you know me way better than I know you

I know that look... I know the empty ring finger and that obsessive nature of yours that's a big secret...
You don't risk everything you have to save someone who doesn't wanna be saved unless you got something... anything... one thing
The reason normal people got wives and kids and hobbies, whatever...
It's because they don't have that one thing that hits 'em that hard and that true
For me it's music... for you its whatever this is
The thing you that think about all the time, the thing that makes you south of normal... yea it makes us great... it makes us the best...
All we miss out on is everything else
Ain't no woman waiting at home after work with a drink and a kiss... that ain't gon happen for us

[William:] Well that's why God made microwaves, right?

[Aha:] Huh, yeah, microwaves...
