

Hot

Aha Gazelle

Stop the capping y'all be fibbing  
Started rapping now you killing  
We forgetting about the children  
All these sores they need some healing  
Rappers dying left and right  
The pistol got an appetite  
I'm a light like candle light  
I guard my heart don't handle light  
I'm the hardest I can feel it  
Clowns the circus acting silly  
Heart feel cold it's acting chilly  
Sinning make my heart feel icky  
I am married licky licky  
Lyrics flowing I'm real witty  
Tryna be paid like I am diddy  
Momma told me keep it G  
So I told her keep it T  
Adam fell he took a plea  
Cain said Abel "enemy"  
God he got a purpose for me  
People saying curses to me  
Few my ex's lurking on me  
Got me enemies searching for me  
People told me stay in school  
I'm educated I'm not a fool  
Gotta pay my payment dues  
Jordan signs on all my shoes  
People told me this and that  
I calculated and did the math  
Stack and stack don't ever lack  
They got some people mad we black  
Man they laced my weed for real  
Now that's a way to get you killed  
It could of paralyzed my skills  
Them demons on me pray I'm healed  
In the end it will reveal, now that right there should give you chills  
I'm moving mountains climbing hills I never stop I simply yield  
Look at all the things we facing covid, trump, and all these racists  
See the hate on all they faces, UFOs in foreign places  
God I'm giving all my praises, pray and then I walk with changes  
Constantly evolving stages I ain't even trying to be famous

Cool  
Cause it's hot hot  
Hot, hot, hot  
On my soul I'm out my top  
Kick down the door it's really up like UFOs up in the spot  
I got the keys  
Enjoy the breeze  
While I transpose and I unlock  
It really shows that we were chose and you exposed because you not

It's Aha up in the spot  
I wanna see toes come out yo socks  
Slick as a fox I know a lot but playing it slow like Michael Watts  
The best that no one ever was  
Shoutout Misty, shoutout Brock

Royalty my DNA  
Shoutout Momma, shoutout Pops  
I'm the one they tried to stop  
That's too bad cause I'm on go  
Yea they like to talk a lot but its all lies cause they don't know  
Told em that the work gone come with pain and most of them didn't show  
I don't understand without the rain how are sposed to grow  
Better watch you never know biggest hater could be your bro  
All my steps are ordered I know regardless I'm gonna blow  
Even if I'm baby stepping I'm progressive shoutout Flow  
Ima get get get it that's RIP Shawty Lo  
Better watch how you live cause you always reap what you sow  
That's why Aha choose to give to these people that he don't know  
I don't want none in return I just do my thang and I go  
You find out who people really are when you finally say no  
Accepting I'm just a man ain't tryna be nobody goat  
Don't even have a plan I'm just stepping up off the boat  
Promise I come in peace but I'm ready if you want smoke  
It's Aha but not a joke, take off your coat

Cause it's hot hot  
Hot, hot, hot  
On my soul I'm out my top  
Kick down the door it's really up like UFOs up in the spot  
I got the keys  
Enjoy the breeze  
While I transpose and I unlock  
It really shows that we were chose and you exposed because you not
