

Keep It In The Family

Aha Gazelle

Put you on silent before you mess me up
Yeah

Ain't no fear in me
I shoot my shot like Jordan
My daddy raised me right so no, I'm not an orphan
I'm out here killing them my momma is my lawyer
If I can't hit the note my sister hit it for me

Ain't no hoe in me we got kicked out the garden
What's that supposed to mean? Well I am not a farmer
It's just my bro and me, we rollin', he my partner
He said we need a banger so my drums are harder
Got people lying on me like my name Mufasa
I'm fresh to deaf so I can't even hear the gossip
They tryna buy my soul so they can make a dollar
I gotta keep it all in house like it's a hostage

Ain't no fear in me
I shoot my shot like Jordan
My daddy raised me right so no, I'm not an orphan
I'm out here killing them, my momma is my lawyer
If I can't hit the note my sister hit it for me
I found it's better just to keep it in the family
My homies are the only ones who understand me
Sink or swim I know they'll never leave me stranded
My brother and my sister, momma and my daddy

This beat is super hard, you see it in my shoulders
Don't know you jackin' with my donkeys like an ogre
Then they get mad and flip me off like Motorola
I don't react in fact I still invite them over
Ruffin in the living room, he got 'em dancin'
The house ain't really big but treat it like a mansion
Got people makin' t-shirts all up in the attic
I'm in the kitchen, Willie Earl, he got the camera
I can't make this up, this ain't another story
What's goin' on upstairs, well, that's another story
Connected to some people, that's way past the border
Ain't never seen it, well, because it was imported

Ain't no fear in me
I shoot my shot like Jordan
My daddy raised me right so no, I'm not an orphan
I'm out here killing them, my momma is my lawyer
If I can't hit the note my sister hit it for me
I found it's better just to keep it in the family
My homies are the only ones who understand me
Sink or swim I know they'll never leave me stranded
My brother and my sister, momma and my daddy

I'd rather be Nat King Cole than Nat Turner
I'ma disappear before this world burns me
Look high and low
Give me five loaves and two fish
That's a Timmy Turner
I'm a penny earner selling downloads

In some Penny Loafers, that's a brown loaf
And I suggest you don't try me
That's not a Dej Loaf, that's a periscope
That's a sniper rifle with a red dot
I see your driver's license, that's a head shot
They say put your money where your mouth is
It's real expensive 'cause I say a lot
I go by many names like I'm Kakarot
I ain't got no kids so I don't play a lot
You got yes man that say okay a lot
I got family that's all I care about

Ain't no fear in me
I shoot my shot like Jordan
My daddy raised me right so no, I'm not an orphan
I'm out here killing them, my momma is my lawyer
If I can't hit the note my sister hit it for me
I found it's better just to keep it in the family
My homies are the only ones who understand me
Sink or swim I know they'll never leave me stranded
My brother and my sister, momma and my daddy
