

Escape

AHI

When the fire comes through town
When all your hopes are burning to the ground
And there's no warning sign, no warning sign at all

When you don't know where to go
'Cause the road ahead is swallowed in a wall of smoke
And there's no warning sign, no warning sign at all

I will not delay when you call on me
'Cause I will carry you if it's what you need

I'll be your escape, I'll make the way clear for you
Let me keep you safe, know that I'm here to assure you
Oh, if you're caught off guard, trapped and lost, don't you be afraid
I'll be your escape

I know it's hard sometimes to tell
If this is real life or just living hell
And there's no warning sign, no warning sign at all

I will not delay when you call on me
'Cause I will carry you if it's what you need

I'll be your escape, I'll make the way clear for you
Let me keep you safe, know that I'm here to assure you
Oh, if you're caught off guard, trapped and lost, don't you be afraid
I'll be your escape

Home is where our hearts both come together
As long as we got each other, you know it's gon' get much better
Home is when we give each other shelter
We can overcome any weather, so let us escape together

I will not delay when you call on me
'Cause I will carry you if it's what you need

I'll be your escape, I'll make the way clear for you
Let me keep you safe, know that I'm here to assure you
Oh, if you're caught off guard, trapped and lost, don't you be afraid
I'll be your escape

I'll be your escape
