

Full Circle

AHI

How am I lost again?
A misfit in my own skin
Tell me that I'm not alone
I'll know for certain
Out of control I spin
I drown in a world of sin
I know if you pull me close
I'll find the surface

You are my perfect part
All that I need, all that I got
As long as you're wrapped 'round my heart
I'll come full circle

Under the loyal moon
Can I slip away with you?
When I hear you call out my name
Sweet like a sermon
There's nowhere I'd rather be
With you lying next to me
The comfort I find in your eyes
I'm no longer searching

You are my perfect part
All that I need, all that I got
As long as you're wrapped 'round my heart
I'll come full circle
And you are my guiding star
You always bring me right back to the start
As long as you're wrapped 'round my heart
I'll come full circle

Ooh-ohhh, round and around you bring me right back
Round and around you lead me on home
Round and around and I come full circle
Ooh-ohhh, round and around you bring me right back
Round and around you lead me on home
Round and around and I come full circle

You are my perfect part
All that I need, all that I got
As long as you're wrapped 'round my heart I'll come full circle
And you are my guiding star
You always bring me right back to the start As long as you're wrapped
'round my heart I'll come full circle
As long as you're wrapped 'round my heart I'll come full circle
