

Higher

AHI

We can walk on the ocean floor
Ride waves, crash into each other's hearts
Lay down on clouds in each other's arms
Ride on a falling star

'Cause it's a long way down from here

And we'll go higher
No, we won't stop there
To the light, 'til the heavens await us
Fly away and we'll let it take us
Higher
No, we won't stop there
This ride is one for the ages
Touch down in the house of angels

I'll go through the depths of hell
To draw you up, you're the water to this well
Oh, and I will carry you to where holiest of holies dwell
There is where we'll be ourselves

And it's a long way down from here

And we'll go higher
No, we won't stop there
To the light, 'til the heavens await us
Fly away and we'll let it take us
Higher
No, we won't stop there
This ride is one for the ages
Touch down in the house of angels

Higher
Higher
Higher
Higher

And we'll go higher
No, we won't stop there
To the light, 'til the heavens await us
Fly away and we'll let it take us
Higher
No, we won't stop there
This ride is one for the ages
Touch down in the house of angels
Higher
No, we won't stop there
Higher, higher
No, we won't stop there
