

# Ol' Sweet Day

AHI

I've got a lot to learn, you've got a lot to give  
We can go anywhere, rebuild this broken bridge

You've got a heart of gold, I've got a mind that goes  
On and on and on to places we'll never know, but

I just want to be with you when the day is done  
When the darkness comes  
When the ol' sweet day is done

I just want to be with you in the setting sun  
'Til the morning comes  
When the day is done, whoa-oh  
Mm-mm-mmm  
When the ol' sweet day is done

If you got it figured it out, then I'm going round and round  
But darling I'll lift you up, 'cause I know you won't let me down

I want you to meet me there by the well where we used to drink  
I will draw the water if you quench these thirsty lips, 'cause

I just want to be with you when the day is done  
When the darkness comes  
When the ol' sweet day is done

I just want to be with you in the setting sun  
'Til the morning comes  
When the day is done, whoa-oh  
Mm-mm-mmm  
When the ol' sweet day is done

I've walked a million miles  
You've made the perfect home  
You and me will be alright  
As long as we're not alone, cause

I just want to be with you when the day is done  
When the darkness comes  
When the ol' sweet day is done

I just want to be with you in the setting sun  
'Til the morning comes  
When the day is done, whoa-oh  
Mm-mm-mmm  
When the ol' sweet day is done

Whoa-oh, whoa-oh-oh  
When the day is done  
When the day is done  
Whoa-oh, whoa-oh-oh

When the ol' sweet day is done
